PROFILE

Full Stack Developer with experience building web applications using React, Node.js, and modern frameworks like Next.js. Skilled in designing and integrating RESTful APIs and working with databases such as MySQL and MongoDB. Experienced in AI data annotation and model evaluation, contributing to improving machine learning systems. Passionate about building scalable applications and continuously learning new technologies.

WORK EXPERIENCE

Data Analyst - (TELUS International AI) 2026 **2026 January – now**

- Supported AI training workflows through data annotation and search relevance evaluation.
- Worked with geospatial and structured datasets to improve recommendation and ranking systems.
- Performed quality analysis for machine learning data pipelines.

Full Stack Developer - (Taquería Playa Tropical) **2026 March - July**

- Developed a full-stack business management application using React, TypeScript, Node.js, Express, and MySQL.
- Built responsive interfaces with Tailwind CSS and implemented RESTful APIs with authentication.
- Checked APIs responses for connection with delivery applications
- Contributed to increased customer inquiries through improved digital experience.

Data Analyst & ETL Developer - Rocky Mountaineer **2026 March - May**

- Built ETL workflows with Python, Pandas, and PostgreSQL for a food supply company, automating order calculations and migrating operational data from Excel into relational databases.
- Performed data analysis, cleaning, and database management to support logistics and food delivery operations for tourism train services.
- Migrated and transformed operational data from Excel spreadsheets into PostgreSQL databases, improving data organization, scalability, and reporting workflows.

PROJECTS

Personal Portafolio's **April 2026**

Personal portfolio website showcasing projects and technical skills using Node.js, Vercel, SupaBase, Angular, FastAPI, and Render.

FlatFinder **Sept 2025**

Rental property management platform developed with Angular, Node.js, Express, and Firestore. Collaborated using GitHub and Docker for deployment consistency.

FocusFlow **February 2026**

Full-stack task management application built with TypeScript, Node.js, MySQL, and Tailwind CSS, featuring REST APIs and responsive UI design.

EDUCATION & QUALIFICATIONS

Greystone College - Canada **2024 - 2026**

Diploma Full Stack Development

Knowledge in web development, data management, machine learning, databases, website creation and back-end frameworks.

VOLUNTEERING

Educator – World Vision **May 2024**

- Taught basic digital literacy concepts and promoted education in underserved communities.

Provincial Coordinator and collaborator - Scouts Association **2011 - 2024**

- Coordinated community and social impact projects involving teams of up to 50 people.
- Managed planning, communication, and logistics for educational and emergency support initiatives.
- Organized collaboration activities and engagement programs across Scout groups.

SKILLS

Transferable Competencies

- Team leadership and task delegation
- Communication and conflict resolution
- Inventory and resource management
- Project Planning

Technical Skills

Frontend: React, Angular, Next.js, TypeScript, JavaScript, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, Python, C++
Databases: MySQL, MongoDB, Firestore, SupaBase, PostgreSQL, Excel
Tools: Git, Docker, Jira, Figma, Bash, Postman, BitBucket
AI/Data: Data Annotation, AI Evaluation, Search Relevance, Pandas, Claude Code
Other: Agile, Debugging, Data Analysis

LANGUAGES

• English (C1 certified) • Spanish (Native)
